

Power outlets which may be used by the public are indicated by a large P on this diagram. Water is available between the bathrooms, in the maintenance closet and in the Concessions Stand.

The Carousel has four six-foot tables, which are usually used in the party alcove for party seating and/or the serving of food.

We also have about 17 2x4 foot tables which can be placed around the Carousel for dining. Each table seats four or five people.

Renters can indicated on this map where they would like tables set for their event.
